## SPECIFICATION - DETAILS

#### Please Note:

All artwork to be supplied as a High Res PDF to visual size plus 10 mm bleed with crop marks.

1/10th scale, minimum 300dpi The majority of applications used today will output a print ready PDF file.

To make sure that your file is of the highest quality, all images should be set no lower than 300dpi resolution. Your file should also be created at 10% of the final size (If you prefer other formats such as 25 or 50% please make us aware of this with your order). If using InDesign, export to PDF using the Press Quality setting with Bleed & Crop Marks set at 10mm offset.

#### **Special Build Caveat:**

Please discuss special build requirements with your rep. They will advise on time-lines and liaise with the installation team.

Large scale special builds are liable to increase the lead in time on activation planning.

Please take this into consideration when planning your campaign activation.
